## FULFILLING THE DREAM CONFERENCE

The Fulfilling the Dream conference draws its name from the great civil rights leader Dr. Martin Luther King Jr. who had a dream about equality for all people.

He is one of the many leaders who fought for the rights of African American students. Typically the "Fulfilling the Dream" conference offers a unique opportunity for African American youth to engage in hands-on learning at a local university. In the past, participants have connected with African American students and college professionals to gather first hand knowledge about the higher education process and how to make it a reality.

This year we are delivering this program to students virtually! Still giving students the information that is needed to help make the best college choice!
